

Crops Annotation Codes

“it would help to know which kinds of background drive the false positives.”

Taking high confidence false positives, up to 200 per model run against testset
Examining at full scale. Then scoring what is the main or salient signal in the image.

Red box displayed over actual detection coordinates

Detection is padded generously to see context clearly.

Here's the current, full annotation code list:

Code	Meaning
S	Shadow
H	Human
E	Excreta (guano)
B	Bird
W	Wave
G	Glint/Glare
F	Foam
K	Kelp (<i>original coarse code — see split below</i>)
Km	Kelp — mat/raft (large, salient)
Kf	Kelp — fragment (small, floating)
Wk	Wake
O	Other (<i>original coarse code — see split below</i>)
Od	Other — too dark/blurred/submerged to identify
Oc	Other — clearly visible, just doesn't fit any category
N	Nothing Empty/flat water — no visible feature at all
